

THE OPTIMA LLOYD GEORGE ASIA FUND Monthly Report July 31, 2019

Investment Objective

- The objective of the Optima Lloyd George Asia Fund (the "Fund") is to generate positive returns over the medium term by investing in Asian equities (excluding Japan and Australia) while seeking to reduce volatility through hedging.
- The Fund will seek to achieve its investment objective by investing up to 100% of its assets directly in Asian equities including Emerging Market equities and/or indirectly through financial derivative instruments.
- It is a more concentrated approach which is expected to consist typically of 30 to 50 equity long positions while shorts consist primarily of options on indices or market futures (certain markets restrict shorting).
- The Fund provides access in a UCITS eligible investment vehicle with daily liquidity and no lock up.

Investment Strategy & Opportunity

- The Optima Lloyd George Asia Fund is an Asia focused long/short equity fund launched in 2019. The Fund is managed by Robert Lloyd George, a highly regarded portfolio manager with more than four decades of experience of investing in Asia.
- Asia is the largest economy in the world based on GDP, and it has been growing at triple the rate of the developed Western economies. Moreover, the region's economy is highly dynamic, as exemplified by the ongoing transformation of both India and China. Although Asia is underrepresented in many institutional portfolios today, it is expected that the flow of capital into the region will accelerate.
- Because the region encompasses such a diverse range of countries, markets, currencies, and valuation levels, the portfolio manager believes that in-depth, bottom-up fundamental analysis and comprehensive top-down research can add value by identifying overlooked and misunderstood companies and industries.
- The portfolio manager believes growth trends in Asia focus around themes such as healthcare, e-commerce, domestic and international tourism. As a result, the portfolio is expected to emphasize themes, such as the internet, consumer spending, and financial management.

+ **DISCLAIMER: *Past performance is no guarantee of future results.*** The Optima Lloyd George Asia Fund (the "Fund") is a sub fund of Apsley Fund ICAV. Class H shares of the Optima Lloyd George Asia Fund commenced operations on May 3, 2019. The performance record shown here reflects the actual results of the Fund and performance calculations reflect the change in the Net Asset Value per Share for an investor who made an initial investment at the inception of the Fund (or Class as applicable) and who has made no additional subscriptions to, or redemptions from, the Fund since that date. Performance is net of all fees and expenses. Investors who made an initial investment after the inception of the Fund may have slightly different performance. The returns given for the MSCI AC Asia ex Japan Index (the "Index") are total returns in US Dollars which include the reinvestment of dividends. The investment program of the Fund differs significantly from the Index. The returns of the Index are only included for illustrative purposes. This is not an offer to subscribe for Shares in the Fund. The offering is made only by means of the Prospectus and Supplement issued by the Fund which describes, among other things, the risks of making an investment in the Fund and the qualifications subscribers must meet before making an investment. Further information regarding the Fund is available from the registered office of the ICAV at 5th Floor, The Exchange, George's Dock, IFSC, Dublin 1, Ireland during normal business hours on any business day. Information also available at www.optima.com.
