Albemarle Target Italy Fund Hedged (the "Fund")
a sub-fund of the
ALBEMARLE FUNDS PLC (the "Company")

Class A Shares – Denominated in Euros - ISIN: IE00BDHF6007

Objectives and Investment Policy

The investment objective of the Fund is to seek to achieve long term capital appreciation with a fully hedged strategy.

Essential features of the product which a typical investor should know:

- The Fund will have a predominant exposure to the Italian equity sector and may invest up to 100% of its net asset value ("**NAV**") in equities listed on the regulated Italian markets. 10% of its NAV may be invested in other UCITS that at invested in underlying Italian listed equities.
- The Fund will also invest in bonds denominated in a European currency and held with European credit institutions, primarily European banks.
- Investment in bonds may include investment in investment-grade or below investment-grade corporate or government bonds, which have a fixed or floating rate. Investment in below investment-grade bonds will not exceed 30% of NAV.
- The fund will seek to fully hedge its investments in equities against market movements using Mini FTSE MIB Futures Contracts of equal notional value to the long positions in the portfolio.

Other Information:

- Shares in the Fund may be redeemed on demand, subject to certain restrictions, on each Dealing Day.
- The Company will reinvest any income that it earns from its investments.
- The Fund may be leveraged as a result of its use of financial derivative instruments, but such leverage will not exceed 100% of NAV at any time.
- Investment in the Fund is suitable for investors who expect to maintain their investment over the medium to long term horizon.
- The Fund is actively managed with no reference to a benchmark.

Risk and Reward Profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The Fund is categorised as 5 for the purposes of this table. This offers a potential of higher risk than a low risk fund however, with greater long term returns although there is a risk that the value of the fund could fall. It has been so categorised as due to the high volatility of the underlying securities and its benchmark fund.

- Historical data may not be a reliable indication for the future
- The lowest category does not mean 'risk free'.
- Risk category shown is not guaranteed and may shift over time

Investment in the Fund carries with it a degree of risk (which may change over time) which may not adequately be captured by the indicator:

- Market risk - changes in economic conditions can affect adversely the prospects of the Fund;
- FDI Risk – the Fund may trade exchange traded or OTC;
- Counterparty Risk where the Fund trades FDIs;
- FDI use may increase or reduce the risks to underlying assets. As a result of this use, the Fund's NAV is likely to have high volatility;
- Operating risks and the risks relating to the Custodial safekeeping of assets;
- Liquidity and default risk for investment in below investment grade securities.

Further details of risks associated with an investment in the Fund are set out in the "Risk Warnings" Section of the Fund's Prospectus and the "Investment Risks" Section of the Fund's Supplement
