Target Global Equity Fund (the "Fund") Class I Shares (EUR) a sub-fund of Apsley Fund ICAV (the "ICAV")

ISIN: IE00BKTPJD17

Objectives and Investment Policy

The Fund aims to achieve long-term capital growth through a predominantly equity strategy with moderate fluctuations.

The Fund will seek to achieve its investment objective by investing on a global basis directly and/or indirectly through financial derivative instruments ("FDI") in equities and equity-related securities. The Fund will also invest in money market instruments, collective investment schemes and other FDI with moderate fluctuations in the overall value of the portfolio. The Fund may select investments from the benchmark (MSCI World 100% Hedged to EUR Net Total Return Index, an index with over 1,600 constituents (the "Benchmark")).

The Fund may invest up to 100% of its Net Asset Value in a wide range of equities and equity-related securities listed, traded or dealt in a Recognised Market. Such equities and equity related securities may include, but are not limited to, common stocks, preferred stocks, convertible debt obligations, and convertible preferred stocks, or share purchase rights, which fall within the definition of transferable securities.

A maximum of 10% of the Fund's Net Asset Value may be invested in: (i) UCITS and Acceptable AIFs, which may include open-ended exchange traded funds; (ii) exchange traded closed-ended funds in order to gain exposure to equities and equity-related securities; and (iii) money market funds.

The Fund may employ investment techniques and use FDI for investment and hedging purposes and for efficient portfolio management of the assets of the Fund subject to the limits and conditions imposed by the Central Bank. In particular, the Fund may purchase or sell, foreign exchange contracts (including options, swaps and forward contracts), equity options, equity index futures, equity swaps, currency futures and cross currency basis swaps.

The Fund may invest up to 100% of its Net Asset Value in cash, money market instruments including certificates of deposit and commercial paper issued by highly rated (Investment Grade or higher) corporate or sovereign issuers for cash flow purposes or as part of a temporary defensive strategy or where the Investment Manager believes that economic, financial and political conditions make it advisable to do so.

The Fund is actively managed in reference to the Benchmark. Investments in the portfolio may be specifically selected from the constituents of the Benchmark to a maximum of 95% of the assets of the Fund in normal market conditions; however, the Fund is not required to invest up to 95% of its assets in the constituents of the Benchmark.

For more information about the investment policy, see "Investment Objectives and Policies" in the Fund's supplement.

Risk and Reward Profile
