This document provides you with the key investor information about the Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Albemarle Longevity Fund (the "Fund") a sub-fund of the ALBEMARLE FUNDS PLC (the "Company") The Fund is managed by KBA Consulting Management Limited (the "Manager") Class A Shares – ISIN: IE00B3BM9X16

Objectives and Investment Policy

The investment objective of the Fund is to achieve long term capital appreciation by investing in listed equities of companies that might benefit from the European long-term demographic trend of the ageing population.

Essential features of the product which a typical investor should know:

- The Fund will invest at least 70% of the net asset value of the Fund in listed equities, including listed Real Estate Investment Trusts ("REITs")
- At least 70% of the investments will be in European companies, i.e. companies incorporated and/or listed on a stock exchange in Europe. The Fund will, therefore, have a predominant exposure to Europe. Up to 30% of the investments may be in non-European companies.
- The Fund may invest up to 30% of the net asset value in government bonds, corporate bonds, and convertible bonds. Investment in below Investment Grade bonds and Not-Rated bonds will not exceed 20% of the net asset value of the Fund.
- The Fund may invest, directly or indirectly through the use of FDI, up to 10% of the Net Asset Value of the Fund in transferable securities outlined under the headings outlined above or money market instruments which are not listed, traded or dealt in on a Recognised Market.
- The Fund may use financial derivative instruments, such as, but not limited to, (including financial future contracts), equity swaps, equity index futures, equity options, and equity index options ("FDIs") for efficient portfolio management or investment purposes. A list of the FDI markets is set out in Appendix IV of the Prospectus.

Other Information:

- The Fund may, at the discretion of the Investment Manager, hedge against currency fluctuations in non-Euro denominated portfolio investments.
- Further details of the risks are included in the Prospectus under the heading "Foreign Exchange Risk".
- The Fund will not engage in share class hedging.
- The Fund is suitable for investors who are willing to tolerate medium to high risks and who are seeking a portfolio which has a long-term horizon.
- The Fund is actively managed without reference to any benchmark meaning that the Investment Manager has full discretion over the composition of the Fund's portfolio, subject to the stated investment objectives and policies

For more information about the investment policy, see "Investment Objectives and Policies" in the Fund's supplement.

Risk and Reward Profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The Fund is categorised as 6 for the purposes of this table. This offers a potential high risk than a low risk fund. However, with better long term returns It has been so categorised due to the high volatility of the underlying securities and its benchmark.

- Historical data may not be a reliable indication for the future
- Risk category shown is not guaranteed and may shift over time
- Further details of risks associated with an investment in the Fund are set out in the Prospectus and Fund Supplement
- The lowest category does not mean 'risk free'

Investment in the Fund carries with it a degree of risk (which may change over time) which may not adequately be captured by the indicator:

- Credit risks to bonds or other debt instruments
- Market risk, changes in economic conditions can affect adversely the prospects of the Fund
- Operating risks and the risks relating to the safekeeping of assets
- Custodial risks including safe keeping of assets
- FDI use may increase or reduce the risks to underlying assets
