**Commentary**

The Fund posted a small negative performance in August, nevertheless it outperformed the benchmark by over +150bps. The main positive contributors to the Fund performance had been Esprinet, Fila, Vetropack, Verallia and Fluidra. Esprinet rebounded benefitting from some short covering amid indications that the sector should bottom out in 2023. Fila rose as the company announced solid H1 2023 results, raised its FY 2023 free cash flow guidance and announced that its Indian subsidiary Doms Industries filed for an initial public offering on the Indian Stock Exchange. Vetropack gained as the Swiss company announced H1 2023 results ahead of expectations in terms of profitability. The main detractors to the Fund performance during the month had been Dometic, Huber+Suhner, Jungheinrich, Nobia and Pirelli. Dometic declined following the general underperformance of consumer discretionary stocks, and the stock was also penalized by some negative newsflow coming from the North American boating industry, which is one of Dometic's main customers group. Huber+Suhner dipped as the Swiss telecommunications products manufacturer published weaker-than-expected H1 2023 results and gave a softer-than-expected outlook for H2 2023. During the month the main trades executed had been the sale of Tinexta, Gurit, Verallia, De' Longhi and Sabaf, and the purchase of Marr, Aubay, Valmet, Acerinox, Aperam, Jungheinrich and Esprinet
