Commentary

The Fund recorded a negative performance in October, performing in line with its benchmark. On the equity side, the main positive contributors to the Fund performance had been Huhtamaki, Cementir, Acea, Enel and De' Longhi. Huhtamaki outperformed as the Finnish food packaging company reported Q3 results ahead of expectations, triggering some minor analysts upgrades for both 2023 and 2024. Cementir rose as few analysts pushed the stock ahead of Q3 results foreseeing a likely guidance upgrade. De' Longhi gained as analysts expected positive Q3 results with good sales momentum and improving margins. The main detractors to the Fund performance during the month had been Fluidra, Vetropack, Esprinet, Fila and Iveco. Vetropack underperformed together with the other European container glass players as the quarterly results released by Verallia and Vidrala revealed recent weakness in demand with double-digit market volume decline in Q3. The fixed income part of the portfolio posted a positive performance during the month, contributing to c. +20bps to the fund performance, mainly thanks to price gains registered on both corporate and government bonds. During the month the main trades executed had been the sale of Huhtamaki, and the purchase of Vetropack, Technogym and Brembo.
